TEKSKIL PROMPTER SOFTWARE

TEKSKIL INDUSTRIES presents the latest in Prompting Software: EZPrompt Ver 6.0 with an optional Closed Captioning Module

Whether you only need to prompt an occasional script for that special presentation, or need to do full-scale, long format presentations with many scripts, EZPrompt is the right software solution. It runs on Notebooks and Desktop machines with standard Microsoft Windows® Vista, XP, 2000 Professional, and NT operating systems. You can configure EZPrompt on just about any computer in your present inventory - no need to go out and purchase a brand new computer system to be up and running. EZPrompt offers several powerful options user-configureable rundown, back-timing and Closed-Captioning.
