

Tekskil 22P-HD LCD Teleprompter

Tekskil's 22P-HD prompter is the solution to large studios or on-air performers with not-so-great eyesight.

This impressive 22 inch monitor is the largest camera mounted prompter available.

The 22P-HD combines the latest in enhanced LCD displays with supercharged brightness and sophisticated optics (screen bonded glass micro-laminates) to deliver the best readability of any prompter. The energy-efficient LED backlights are bright, light and tough, the custom electronics ensure image quality with non-stop management of signal, power and temperature, and the all-metal housing is an engineered fusion of strength, rigidity, and light weight.

The 22P-HD is the ultimate in rugged performance and is guaranteed to perform under the most challenging conditions.

This prompting system can be complemented with a 22 inch HD Aux /Talent Assist display; this configuration is an excellent match for the latest generation of mid-weight robotic pan & tilt pedestals. The innovative modular design enables the 22P-HD to quickly reconfigured for field or Outdoor Broadcasting or even as a Presidential Speech Prompter. Re-staging is simplified with Tekskil's proprietary quick release mounting system and a comprehensive choice of conversion kits.

- Tekskil prompters are professional grade products – Premium systems feature ultralight micro-truss enclosures
- Tekskil premium displays are the latest in LCD technology with benchmark resolution, contrast and brightness
- 22P system will support a 22" HD auxiliary display dynamically suspended underneath the prompter and dampened to be free of vibration
- Available with a front-mounted single stage tally light or a top-mounted dual stage TallyCAM display
- Affordably priced
